

RECYCLING MADE EASY

EUCON R3A

RETURNED CONCRETE TREATMENT ADMIXTURE

EUCLID CHEMICAL

RETURN, RECYCLE, REUSE

EUCON R3A is a chemical additive for the treatment of returned fresh concrete to revert the concrete back into a dry material that can be easily managed, recycled, and reused. EUCON R3A is an easy-to-use powder that is added directly to the ready-mix truck drum and allows the concrete to quickly return to form as a convenient dry usable material. Upon conversion of the concrete, it can be easily discharged from the drum, allowing for simple cleaning.

WHY CHOOSE EUCON R3A?

OPERATIONAL EFFICIENCY

Simplifies drum cleaning and reducing turnaround time for trucks

REDUCES WASTE

A cost-effective solution that supports sustainability goals

FAST REACTION TIME

Converts concrete into a dry, usable material in minutes

ONE-COMPONENT POWDER

Simple, direct addition to the truck drum
